## MOTION PICTURES

For loan or purchase information, write to Motion Picture Service, Office of Information, U.S. Department of Agriculture, Washington, D.C. 20250.

**Something to crow about.** Sound, color, 16 mm., 27½ minutes.

We accompany a European magazine writer to a hatchery, a feed mill, a broiler farm, a processing plant, and a supermarket. In the market we see an abundant display of attractively-packaged, USDA-inspected and graded poultry, poultry parts, and poultry convenience food products—all available at reasonable prices. The American consumer is reminded that every poultry product bearing the circular USDA inspection mark is safe, clean and wholesome. At a large modern processing plant, the U.S. Department of

Agriculture's poultry inspection program—which enables consumers to select poultry with confidence—is pictured and explained. (Available from film libraries at State Universities.)

**Rural holidays.** Sound, color, 16 mm., 25 minutes.

Farmers and ranchers offer many kinds of rural recreation to the city dweller, from the day camp to the ski slope. Community watershed lakes and picnic grounds are among the recreation benefits of the Watershed Protection Program. Farmers are encouraged to develop new recreation facilities, thus diversifying and increasing income. (Available from Soil Conservation Service film libraries.)

**Handling livestock safely.** Sound, color, 16 mm., 9¾ minutes.

Shows hazardous obstacles to avoid in handling and transporting livestock.
